Position Title: Technical Architect – Security Architect

Classification: Assoc. Systems Software Spec/  
200-1585-xxx

Location 11120 International Dr. Rancho Cordova, CA

Section/Unit: CCSAS Project/Systems Management  
Section 200

Salary Range: \$4611-5882

Number of Vacancies: 1

## Job Description: (includes typical duties)

Under the general supervision of the Supervising Technical Architect the Systems Software Specialist (SSS) works as a Security Architect. The Security Architect works with CCSAS Project staff to design and implement systems software security infrastructures, identifies security strategies and principles, and guides the integration of security into development and execution architectures. The Security Architect will serve as a subject matter expert and provide leadership on change requests relating to security architecture. The architect will participate in the analysis and identification of security software and/or hardware needs for system Maintenance and Operations (M&O) and system transition efforts. The Security Architect will also be involved in the creation of JSP, Struts and EJB based Profile Management interfaces to the security services, as well as user login and logout.

## Required Knowledge, Skills, Abilities:

- Experience with Web-Based thin client or 3 tier C/S architecture and security management in a distributed environment.
- Experience in network and application security, vulnerability assessment, intrusion detection/prevention, and virus detection.
- Strong interpersonal and communication skills, and ability to work successfully in a team environment while demonstrating initiative and independence
- Strong organizational skills and ability to successfully manage concurrent assignments.
- Development and implementation of security policies and procedures.

## Desirable Experience/Qualifications:

- Experience designing and implementing J2EE components including JSPs and EJBs and Relational Databases.
- Experience performing critical analysis on technical documents
- Ability to effectively communicate technical information to a non-technical audience
- Experience connecting to LDAP from Java or other host application or using LDAP authentication.
- Experience with J2EE security policies and role-based authorization.
- Experience designing and implementing Profile Management and with Tivoli Access Manager WebSEAL Authentication Systems.

"Exempt from hiring freeze"

Please submit a State application form 678 and a statement of qualifications or resume that demonstrates meeting the required knowledge, skills, and abilities.

To be considered for this Job Opportunity, applicants must have permanent civil service status, be reachable on an employment list, or have reinstatement eligibility. **Applications will be screened and only the most qualified applicants will be interviewed.**

**All applicants not currently employed with the Franchise Tax Board will be subject to a pre-employment background investigation.** The investigation will consist of completion of a pre-employment questionnaire, fingerprinting, and an inquiry to the Department of Justice to disclose criminal records.

California State Tax Compliance: As required by the departments rules of conduct, all employees of the Franchise Tax Board (FTB) must be in compliance with the California Revenue and Taxation Code. During the background investigation portion of the hiring process, FTB will review return information to verify California state income tax compliance. Any failure to comply with the California Revenue and Taxation Code may prevent you from being hired at FTB. If you think you may have any potential tax compliance issues, please call (800) 852-5711 to resolve them prior to seeking employment with FTB.
